- **Skills** : Flutter · Dart · Laravel · PHP · MYSQL · JQuery

● **Web Developer & Android Developer**

PT. Grune Teknologi Indonesia, Yogyakarta, Indonesia

- Create & develop Web. Web Company <https://grune.co.jp/> Projects: **Tsubotan** <https://tsubotan.net/> A website that offers a one-stop service from interior estimation for restaurants to construction. The design team was in charge of not only building the system but also creating the 3D image perspective. We were in charge of all of the market research, planning, system construction, marketing strategy, and advertising operation of new businesses that are expected to sell 5 billion yen in 3 years. **Resolution App** <https://grune.co.jp/project/auto-mechanic-qualification-app/> Mobile app for auto mechanic measures. With abundant functions such as membership registration function, favorites, sticky notes, commentary, memorization card, pass judgment, etc., you can efficiently Prepare for and study for exams. The job information on the website is also acquired and displayed in the background, enabling quick access to the job. **Resolution Web** <https://www.resolution.co.jp/> We have renewed the website of our clients who provide dispatch services for auto mechanics nationwide. In addition to improving the visibility and searchability of job information, we will eliminate the anxiety of new registrants by interviewing seniors and various additional content such as "To new graduates". People use this web to find suitable jobs as mechanics. And many more projects.

- **Skills** : Laravel · PHP · JavaScript · Android (Java) · JQuery
